

INTERNATIONAL MARITIME INFORMATION SAFETY SYSTEM (IMISS)

SNAME WORKING GROUP MEETING

17 MAY 2000

CALIFORNIA MARITIME ACADEMY

The Steering Committee of the Society of Naval Architects and Marine Engineers (SNAME) Panel 0-38 (Human Factors) Working Group on "IMISS" has made significant progress with development and implementation of an International Maritime Information Safety System. This meeting is to present the status of the project and then to work in smaller breakout groups to refine the test and implementation stages of the effort.

AGENDA

Introduction – Working Group Chair and Vice Chair, *Mr. Richard Nikas*, Cogswell, Nakazawa, and Chang; and *Captain Charles Pillsbury*, Maritime Institute of Technology and Graduate Studies (MITAGS)

Welcome – *Captain Jerry Aspland*, California Maritime Academy

Overview of IMISS Blueprint and Development Status - *Mr. Alex Landsburg*
MARAD and CDR Scott J. Ferguson, USCG

Volunteer Reporting System Protections – *Mr. Richard Nikas*

Research Effort on Reporting Form and Data Base – *Dr. Anita Rothblum*, USCG
RDC and *Mr. Kevin Mercier*, California State Lands Commission

Fielding the IMISS Prototype System at NASA – *Ms. Linda Connell*, NASA

Advisory Group Formation and Involvement – *Mr. Alex Landsburg and Mr. Todd Ripley*, MARAD

Marketing of the IMISS System – *Ms. Kathy Metcalf*, Chamber of Shipping of America, *Captain Charles Pillsbury*, and *LCDR Mary Jager*, USCG

Timetable and Milestones – *CDR Scott J. Ferguson, USCG*

Breakout Group Discussions

Reports and Conclusion
